

COMMUNITY HEALING GARDEN

Three Rivers Health Hospice is now located in the heart of the community, on South Main Street on the bank of the beautiful St. Joseph River. We are installing a new Community Healing Garden, designed to be a place of peace and calm for those who walk in it.

The plan includes a curved brick path that leads through a beautiful garden. Reflection points are planned throughout the walk for members to sit and reflect on the memories of their loved ones. Also planned is a gazebo that sits over the edge of the water on the St. Joseph River. This is a gift to the community to honor those who are living, and to help bring healing to grieving hearts for lost loved ones.

We would like to make it even more beautiful and meaningful by having bricks engraved with names of individuals whom the community would like to honor and remember.

We invite you to donate a brick with the name of someone you would like to honor or remember. Just complete the information below and send it back to our office with a check for \$100 minimum per brick. You will receive a photo of the brick once it is installed in the walkway. The installation is planned for late summer. Of course you are invited to see it yourself and enjoy the garden once it is complete. A site plan of the garden is available on our website at www.threerivershealth.org.

Thank you for your continued support of our Hospice program; we are honored to serve our community.
